by local applications, as they cannot reach the diseased portion of the car. There is only one way to cure dearncas, and that is by constitutional remedies. Dearness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Dearness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Dearness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

In Time of War Prepare for Peace. Champ Clark's conversion to the

Protective Tariff ranks is in line with he "Made-in-America" movement that is seizing hold of the minds of American business men of all parties. The war has demonstrated the absoiute necessity of American commercial independence and the need of a restoration of customs duties high enough to protect American manufacturers after the war is over. If it is true that the European war is acting as a Protective Tariff, then the country should prepare for the time when, with peace restored, Germany and England will again enter the world's markets as our competitors. American capitalists will not invest their money in enterprises whose success depends upon a continuation of the European war. They will invest in factories to make the things we need here and which we have heretofore bought in Europe. provided they are guaranteed Tariff Protection that will make prosperity permanent. - Rochester (N. Y.) Times.

long will this business depression last?

To philosophize, we would remark that the trouble is attributed to differnt causes by those in a position to know; for instance, the President said last June that the trouble was psychological, which means it is in the mind

Later it was attributed to the European war. Others not connected with the administration, but who view it from a different standpoint, think it is due to Democratic legislation-Democratic inexperience and incompetence and the result of mis-

If due to any one or all of these reasons, the end is not yet for the minds of the people have not changed; the war will evidently last eighteen months yet and the Democrats are with us until March 1917, and since for every disease there is a cause, it is a simple propositon to reason that in order to establish a care, the cause must be removed.

#### Laying It All to the War.

A strong effort is being made again, under cover of the protest to England over the search and seizure policy, to lay all the blame for domestic business stress upon the war. For such business as can be done under current conditions the war acts as a Tariff wall. It shuts out foreign goods, to a large extent, and so saves American labor and capital from the France—The French claim to have full effects of foreign competition in made further progress in the region the home market. When the war of Pont-a-Mousson, to which military ends this competition will be keener than ever.

Until the Tariff is restored to its former level and until means are provided for getting American goods overseas without paying a tribute to foreign shipping combinations. the United States will not prosper as it should prosper. The prosperity we now have, limited as it is, comes because it is literally forced upon us by outside pressure, and not because of anything done in Washington to foster it, as was done for 16 years of the Ohio Circuit Court, rendered under Republican business auspices. the October term, 1914, in the Bighamton (N. Y.) Republican.
